SHANTHI M

NETWORK ENGINEER

Bengaluru, India | shanthishanthi1666@gmail.com | +91-9361263742 | linkedin.com/in/shanthi-m

PROFESSIONAL SUMMARY

B.Sc. Computer Science graduate specialising in Network Engineering with hands-on training in routing, switching, subnetting, and network troubleshooting. CCNA training completed at Besant Technologies in 2026. Familiar with Cisco routers and switches, DHCP/DNS configuration, VLANs, inter-VLAN routing, SSH/Telnet, and static and dynamic routing protocols including RIP, EIGRP, and OSPF.

TECHNICAL SKILLS

Networking Fundamentals: OSI Model, TCP/IP stack, UDP, subnetting, IP addressing, network topologies, transmission media, hub, switch, router

Routing: Static routing, default routing, RIP, EIGRP, OSPF, route advertisement and verification

Switching: VLAN configuration, inter-VLAN routing, switch management via Telnet and SSH

Router & Switch Configuration: Cisco IOS CLI, interface configuration, Telnet/SSH access, DHCP and DNS configuration

Network Services: DHCP server setup, DNS server setup, IP address management

Security: Secure remote access using SSH, access-control fundamentals

Tools & Platforms: Cisco Packet Tracer, basic Linux CLI

PROJECT

SOHO Network Design | 2025–2026

- Designed a simple network for a small office/home office (SOHO) environment.
- Configured internet access, file sharing, and secure device-to-device communication.
- Implemented DHCP for automatic IP assignment and DNS for name resolution.
- Applied static routing and basic access-control policies for network security.
- Simulated and validated the topology using Cisco Packet Tracer.

CERTIFICATION

CCNA – Cisco Certified Network Associate Training | Besant Technologies | 2026

EDUCATION

B.Sc. Computer Science | Sri Moogambigai Arts & Science College | 76% | 2022–2025

LANGUAGES

English – Professional Working Proficiency | Tamil – Native Proficiency
